DEMONSTRATION OF PROPOSED FEATURES

Date	30 September 2026
Team ID	SWTID-2026-6686
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	1 Mark

DEMONSTRATION OF PROPOSED FEATURES:

This document captures the proposed features implemented and demonstrated in the Streamlining IT Procurement project. It provides evidence of the configured catalog items, automated workflow conditions, Flow Designer tasks, and final procurement execution behavior.

FEATURE DEMONSTRATION TABLE:

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remark
1	Catalog Item & Variables	Created the standard laptop catalog item and configured the required variables for hardware requests.	Implemented	Yes	Base catalog item used for procurement demonstration.
2	Department & Budget Condition	Configured the flow condition to evaluate department values and budget thresholds.	Implemented	Yes	Routing is controlled according to configured department rules.
3	Flow Designer Workflow	Configured an automated Flow Designer workflow to manage request routing and task creation.	Implemented	Yes	Automated workflow is applied during request submission.
4	Authorized Request Approval	Demonstrated automated approval task generation when request conditions are satisfied.	Implemented	Yes	Permitted approval task is generated.
5	Unauthorized Request Restriction	Restricted request progression when budget limits or department requirements are not satisfied.	Implemented	Yes	Unapproved request is properly flagged.
6	Final Procurement Validation	Validated the final request fulfillment and stage update after applying the Flow Designer configuration.	Implemented	Yes	Final ServiceNow output was verified.

FEATURE IMPLEMENTATION SUMMARY:

Metric	Value
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
