PROJECT DEMO PLANNING

Date	30 September 2026
Team ID	SWTID-2026-6686
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	1 Mark

PROJECT DEMO PLANNING:

A well-structured demo plan ensures that the team presents the project effectively, covering the key features in a clear and organized manner. This document outlines the plan for demonstrating the automated IT procurement project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

DEMO SECTIONS & RESPONSIBILITIES:

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project objective and explain the need for automated IT procurement and standard laptop order routing.	2	MANISHA R
2	Solution Overview	Explain the catalog items, catalog variables, approval conditions, and the role of Flow Designer.	2	GOPIKA K
3	Procurement Table & Records	Demonstrate the table creation and show the catalog request records used for testing and fulfillment.	2	VINDHIYA G
4	Flow Designer Logic & Conditions	Show the automated trigger conditions and the flow logic configured for department-based routing.	2	NITHIYASRI M
5	Advanced Workflow & Task Validation	Demonstrate the automated approval task creation and explain how role controls work.	2	MANISHA R
6	Final Result & Q&A	Show the final procurement execution result and summarize the outcome, followed by questions and answers.	2	MANISHA R

DEMO FLOW SUMMARY:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project objective and explain the request automation requirement.
2	Solution Overview	Briefly explain the catalog items, variables, approval conditions, and Flow Designer workflow.
3	Live Feature Demonstration	Show the table/records, Flow Designer logic, department conditions, automated task creation, and final result.
4	Q&A Session	Summarize the result and answer questions about implementation and automated procurement.
