Customer Journey Map

Date	15 March 2026
Team ID	SWTID-2026-6686
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

PROJECT TEAM STRUCTURE (TEAM SIZE: 4)
Team Leader: MANISHA R **Member 1:** GOPIKA K **Member 2:** VINDHIYA G **Member 3:** NITHIYASRI M

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Request & Selection	Stage 2: Approval & Workflow	Stage 3: Fulfillment & Delivery
Actions *What does the customer do?*	• Navigates to IT Service Portal catalog. • Selects standard laptop configuration based on role. • Fills required user details & business justification.	• Submits laptop order request for processing. • Receives automated email confirmation with Request ID. • Monitors approval status via self-service portal.	• Receives dispatch notification and tracking link. • Accepts delivery of pre-configured laptop asset. • Completes digital receipt and onboarding sign-off.
Touchpoint *What part of the service do they interact with?*	• ServiceNow Service Catalog / Self-Service Portal. • Hardware Specification Matrix & Filter tools.	• Automated Approval Notification Emails. • Service Manager Approval Dashboard / Mobile App.	• Courier Delivery Service & IT Asset Desk. • Automated Asset Management System (CMDB).
Customer Thought *What is the customer thinking?*	• "Is this laptop model suitable for my daily development tasks?" • "Will this order request take weeks to get approved?"	• "Has my manager approved the procurement request yet?" • "I hope the automated workflow routes this smoothly."	• "Great! My laptop arrived faster than expected." • "Everything is pre-installed and ready for work."
Customer Feeling *What is the customer feeling?*	• Hopeful for a quick process, but slightly cautious about system delays.	• Reassured by instant automated notifications and tracking visualizer.	• Delighted with swift turnaround time and hassle-free IT onboarding.

Phase of Journey	Stage 1: Request & Selection	Stage 2: Approval & Workflow	Stage 3: Fulfillment & Delivery
Process Ownership *Who is in the lead on this?*	• **Lead:** IT Portal Admin / Service Catalog Manager • **Support:** UX & Service Desk Support	• **Lead:** Reporting Manager & Flow Designer Engine • **Support:** IT Procurement Approvals Team	• **Lead:** IT Asset Fulfillment & Logistics Vendor • **Support:** Desktop Support Engineers
Opportunities *How can we improve this stage?*	• Implement AI-driven persona recommendation for hardware models. • Pre-populate user profile, department code, and manager data. • Add standard bundle options (laptop + monitor + dock).	• Set auto-approval rules for standard hardware within budget limits. • Trigger escalation workflows if manager approval exceeds 24 hours. • Integrate Slack/Teams instant approval buttons.	• Automate vendor order trigger directly via Flow Designer REST API. • Enable auto-assignment in CMDB upon hardware dispatch. • Provide zero-touch deployment via enterprise cloud provisioning.

Key Automation Outcomes (Flow Designer Implementation)

Cycle Time Reduction
Cuts procurement request turnaround from 7 days down to under 24 hours through automated routing.

Zero Manual Overhead
Eliminates manual email follow-ups and paper sign-offs using dynamic ServiceNow trigger flows.

100% Asset Visibility
Real-time tracking of order status, approvals, CMDB logging, and stock availability.
